Email: pranitgourav05@gmail.com
Github: https://github.com/pranitarino5
Mobile: +91-7077619008

Skills

Data Analysis: Statistical Analysis, Data cleaning, Data Validation, EDA
Technical Tools: MySQL, Excel , Power Bi, Sqlite, PostgreSQL,Django
Machine Learning: Regression, Classification, Model Building, Predictive Analytics
Programming: C, C++, Python, Java, HTML, CSS
Other Skills: Data Visualization, DSA, GitHub
Soft Skills: Problem-Solving, Fast Learner, Leadership, Adaptability, Attention to Detail

Projects

Automated ETL & Data Cleaning Pipeline GithubLink Jan 2026

- Built an end-to-end ETL pipeline to extract, standardize, and process multi-format datasets (CSV, Excel, JSON, Parquet) using **Python, Pandas, NumPy, Scikit-learn**, enabling analytics and ML workflows.
- Implemented robust preprocessing including null handling, duplicate removal, normalization, IQR-based outlier filtering, encoding, and feature scaling for high-quality data transformation.
- Improved dataset quality by **85–90%**, reduced manual effort by **70%+**, and efficiently processed **10,000+ records per run** with scalable, modular architecture and logging.

AI-Based Resume Screening & Candidate Ranking System GitHubLink Feb 2026

- Developed an NLP-based system to rank candidates based on job description relevance using **Python, NLP, TF-IDF, Cosine Similarity, NLTK, Scikit-learn**.
- Built resume parsing and preprocessing pipeline for PDF/DOCX including text extraction, stopword removal, lemmatization, normalization, and noise reduction.
- Achieved **85–90% ranking accuracy**, reduced manual screening effort by **70%+**, and enabled automated, data-driven candidate shortlisting

EduCore (Online Course Management System GitHubLink Mar 2026

- Architected a production-ready full-stack learning platform using Django REST Framework, React (Vite), PostgreSQL, implementing JWT-based authentication and role-based access control across modular microservices.
- Developed a feature-rich course management system with enrollment tracking, instructor dashboards, review & rating system, and responsive UI using React, Tailwind CSS, and React Router
- Built secure and scalable REST APIs with JWT token management, Redis caching, django-filter, and optimized ORM queries, enabling high-performance data handling and seamless deployment

Training

Data Structure and Algorithms (using C++) Link Jun 2025
Completed an intensive summer training focused on Data Structures and Algorithms, strengthening problem- solving and logical thinking skills through hands-on coding exercises.

Certificates

- Privacy and Security in Online Social Media | **NPTEL** Apr 2025
- Build Generative Ai App Using No Code Tools | **Udemy** Aug 2025
- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM| **Infosys** Sep 2025

Achievements and Participations

- **Office bearer of a club (Elevate) in the university** Mar 2025
  Served as the Event Coordinator of the club
- **Participated in Get The Flag Hackathon 2025** Jan 2025
  Qualified for **Second Round (Top 50%)** in a college-level hackathon among 250+ participants.

Education

Lovely Professional University Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA:6.55*** *Aug 2023 - Present*

Ravenshaw Higher secondary School Cuttack , Odisha
Intermediate; ***Percentage: 63.2%*** *Aug 2020 - jun 2022*

Secondary Board High School Cuttack , Odisha
Matriculation; ***Percentage: 84.0%*** *Apr 2012 - Mar 2020*
